

Ki? Su?k Kyukyit

Hello Citizens,

I am running for LKB Council and I'm asking for your vote.

This is a little of my background. I am a 60's scoop survivor and a grassroots traditionalist. I learned from the elders, especially my grandparents - from bow making, hide tanning, trapping, sturgeon-nose canoe construction. I teach culture in schools throughout the district when not working in construction. I have canoes I built in Touchstones Museum (Nelson, BC), Idaho State Museum and in private collections throughout the world. I know the oral history, customs, culture and territory from my parents and grandparents. I live it and walk it. On the construction side, I have worked on many of BC's mega projects including hydro dams, pipelines, and roads. I lived in my community off and on most of my life and I know the changes that need to be made.

This division of politics has to stop.

Only you citizens of LKB can help make this change. I believe I have the leadership to make positive changes in housing, education and unity. I will restore honesty, transparency and accountability, good governance and building the future for the next generation. For you who don't know me, I hope we can meet someday and get to know one another in friendship.

"We can make this change happen."

Thank you
